Banner*

How To Make A Banner

1. Decorate with designs and patterns using your choice of art material.
2. When ready, cut out all the pieces along the marked lines.
3. Use a hole puncher to create holes in the top two corners.
4. Weave the string in through one hole and out the other side.
5. You can break it up into two separate banners and hang them one on top of the other, or create one single long banner!

(You can even print on coloured paper!)
